Abstract

The BJS Census of State and Local Law Enforcement Agencies (CSLLEA) is conducted every 4 years to provide a complete enumeration of agencies and their employees. Employment data are reported by agencies for sworn and nonsworn (civilian) personnel and, within these categories, by full-time or part-time status.

Agencies also complete a checklist of functions they regularly perform, or have primary responsibility for, within the following areas: patrol and response, criminal investigation, traffic and vehicle-related functions, detention-related functions, court-related functions, special public safety functions (e.g., animal control), task force participation, and specialized functions (e.g., search and rescue).

The CSLLEA provides national data on the number of state and local law enforcement agencies and employees for local police departments, sheriffs' offices, state law enforcement agencies, and special jurisdiction agencies. It also serves as the sampling frame for BJS surveys of law enforcement agencies.

Summary Data Description

Time Period: 2008

Date(s) of Collection: 2008-09

Country: United States

Geographic Coverage: United States

- Study 27681 -

Unit of Analysis:	state and local law enforcement agencies
Universe:	All state and local law enforcement agencies that were publicly funded and employed at least one full-time or part-time sworn officer with general arrest powers.
Kind of Data:	Census/enumeration data

Methodology and Processing

Data Collection Methodology

Data Collector:	National Opinion Research Center at the University of Chicago
Sampling Procedure:	<p>The 2008 Census of State and Local Law Enforcement Agencies (CSLLEA) collected data from state and local law enforcement agencies with the equivalent of at least 1 full-time officer operating in the U.S. in 2008.</p> <p>The 2008 CSLLEA form was mailed to 20,110 agencies that were determined to potentially be operating on the reference date of September 30, 2008. This master list was created by compiling information from the following sources:</p> <ul style="list-style-type: none">• The 2004 CSLLEA• Lists provided by Peace Officer Standards and Training offices and other State agencies• A FBI list of agencies requesting new identifiers since the 2004 CSLLEA <p>The data were collected on behalf of BJS by the National Opinion Research Center (NORC) at the University of Chicago. More than half (52%) of all responses were submitted in hardcopy version by mail or fax. Another 41% were received through a secure website operated by NORC. The remaining 7% of agencies did not respond by website, mail, or fax within the allotted time-frame and were contacted by phone to obtain their responses. BJS assisted with this non-response follow up.</p> <p>Responding agencies were screened for eligibility, and were excluded if any of the following conditions existed on the CSLLEA reference date of September 30, 2008. The percentage of agencies from the original master list that were ruled ineligible through each criterion is in parentheses.</p> <ul style="list-style-type: none">• The agency employed only part-time officers and the total combined hours worked by these officers averaged less than 35 hours per week (5.1% of agencies from master list excluded).• The agency was closed, represented a duplicate listing, or was otherwise an invalid entry on the master list (2.2%).• The agency contracted or outsourced to another agency for performance of all services (1.7%).• The agency did not employ personnel with general arrest powers (0.6%).• The agency did not operate with funds from a state, local, special district, or tribal government (0.6%).• All sworn officers volunteered their time on an unpaid basis (0.3%).

Data Access

Dataset Availability

Location:	Inter-university Consortium for Political and Social Research, National Archive of Criminal Justice Data
Extent of Collection:	1 data file + machine-readable documentation + SAS, SPSS, and Stata setup files and SAS transport, SPSS system, and Stata system files.

Data Use Statement:

Citation Requirement:	Publications based on ICPSR data collections should acknowledge those sources by means of bibliographic citations. To ensure that such source attributions are captured for social science bibliographic utilities, citations must appear in footnotes or in the reference section of publications.
Deposit Requirement:	To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, users of ICPSR data are requested to send to ICPSR bibliographic citations for each completed manuscript or thesis abstract. Visit the ICPSR Web site for more information on submitting citations.
Conditions:	ICPSR data may not be redistributed or sold to other individuals, institutions, or organizations without the written agreement of ICPSR.
Disclaimer:	The original collector of the data, ICPSR, and the relevant funding agency bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

Data Files Description

File-by-File Description

File Dimensions:	<ul style="list-style-type: none">• No. of Cases: 17,985• No. of Variables: 92• Record Length: 721• Records per Case: 1
Type of File:	ASCII data file
Data Format:	Logical record length
Place of File Production:	Ann Arbor, MI: Inter-university Consortium for Political and Social Research
Extent of Processing Checks:	The data collection was processed according to standard ICPSR processing procedures. The data were checked for illegal or inconsistent code values which, when found, were resolved or recoded to missing data. Consistency checks were performed. ICPSR recoded blanks or system missing data to standardized values.

Variable Description

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

Burden statement

Federal agencies may not conduct or sponsor an information collection, and a person is not required to respond to a collection of information, unless it displays a currently valid OMB Control Number. Public reporting burden for this collection of information is estimated to average 30 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate, or any other aspects of this collection of information, including suggestions for reducing this burden, to the Director, Bureau of Justice Statistics, 810 Seventh Street, NW, Washington, DC 20531. The Omnibus Crime Control and Safe Streets Act of 1968, as amended (42 USC 3732), authorizes this information collection. Although this survey is voluntary, we urgently need your cooperation to make the results comprehensive, accurate, and timely. We greatly appreciate your assistance.
